

To meet the needs of our four-year-old students, I love Learning Preschool offers the options for families to add an additional 2-days to their 3-day program.

What are the similarities between the preschool and enrichment?

- Both the preschool and enrichment programs incorporate activities that promote the development of social, emotional, physical, cognitive, and language skills.
- Both the preschool and enrichment programs will incorporate the same carefully planned curriculum, including kindergarten readiness activities, and promote learning through play and exploration.

What is the difference between the preschool and enrichment?

- The enrichment program is designed to meet the needs of four-year-olds ready for more than a 3-day program. With two extra days for learning, our enrichment class has extended lessons and activity time.

Preschool or Enrichment?
